To Christmas Shoppers, Everywhere in Canada.

Bringing Father

VERY day from now till Christmas is a fresh opportunity for the alert merchant to increase his sale of Christmas goods. Aggressive daily newspaper advertising will do this. The buying public everywhere look on the daily newspaper as their shopping guide. Every day they turn to its advertising columns for helpful gift suggestions. They buy goods advertised in its pages.

Leading merchants know there is no substitute for the daily newspaper for stimulating the sale of Christmas merchandisc. Their continued use of it year after year is based on actual cash register returns.

.The woman of wealth-with maids at her call—the young wife who is home-maker—cook—dishwasher, too. Notice this amazing TRUE fact—

You can't tell, from their hands, which is which!

Everywhere wives are achieving this tri-umph . . . doing all the many tasks of a home . . yet keeping their HANDS so EXQUISITE, so white-you'd think they never touched housework.

men discovered the secret themselves Women discovered the secret themselves, washing fine things in Lux, they noticed how nice their hands looked afterward. Then began using Lux for dishes. Then for cleaning. In fact, whenever their hands touched soap and water!

Almost AT ONCE their hands showed

Smooth white hands for less than 1c a day LUX for dishes

SMOOTH, WHITE, like a GIRL'S!

So wonderful is Lux for the hand, that beinty experts—with all their experience—say, "We can't distinguish between the hands of a woman with maids and the hands of the housewife who uses Lux."

Here is the Secret

Why is Lux so fine for the hands? The reason is this. Many soaps contain harmful alkall that dries up the oils of the akin, the oils that nature placed there to keep the skin smooth and white.

Lindoes not drythese delicate oils. Those sparkling Lux suds in your dishpan are soothing and very bland.

Why not try Lux for YOUR disher costs less than Ic a day!

THE ELECTIONS

Mayor G. A. Reif and the 1930 council were given inciderly side of opportunity to represent the city as a sealt of the city election. On more the newly election. All of the city elections of the city election who found it mayorally and Ald. Pinkston who found it impossible to run this year on account of his railway duties. Two new men enter the circle of benches, Thomas H. Marshall, engineer on the Canadian National Railways and Grand Trunk for many years, and; of the municipality of Tudor and Cablel for thirteer years and a former city public school trustee.

As a result of the declaration of the men who offered to stand for sheeting and the men who offered to stand for sheeting and the men who offered to stand for sheeting and the men who offered to stand for sheeting, and

As a "sealt of the declaration of the men who offered to stand for election, and the voting yesterday the council of 1930 has been practically endorsed through the ract that by weatured to compete with the members he means of the ballot. While combinative results, it does not imean that the city will take measures to spend as much money; in permanent investments as this year in the two river bridges and the yearterworks purification plant. Alderman

this year in the two river bridges and the waterworks purification plant. Alderman MacMillan made that clear last evening. It was a satisfaction to the 1930 council members-to know that there was no real opposition among-the electors to their policy of the past twelve months. Two fine candidates were in the race for mayor and the majority of Mayor Reid was about what either candidate might have expected. It was close enough to be interestine.

GHOSTS OF NO MAN'S LAND

No one can hear the sound of feet
- When dead men rise and march again;
No one can heard the measured beat
Of ghosts that move by, hill and glen
To find some broken, shattered trench
They left to make one final stand,
Before each knew the sudden wrench
Death sent in flame through No Man't

No one can hear when dreamless dust No one can hear when dreamless dust.
Stirs from its clay, to take old form,
Before life knew the closing thrust
And passed before the blood-red storm
Youth, born for morning and the sun,
Where dreams and hopes move hand it

Youth brighter than the poppies spun Above their sleep in No Man's Land.

No one can hear-but from their sleep I know they meet again today.
To find lost mates, up from the deep

And gripping coverlet of clay;
To dream lost dreams that passed too soon
Of life and love by starlight fanned,
Blue eyes, red roses and the moon
They never knew in No Man's Land.

Can ghosts see ghosts that might have been Of children calling in the light? Can unborn shadows still be seen By eyes that hold the inner sight? By eyes that hold the inner sight:
Shadows that dance upon the air
And call in vain, forever banned;
Of song and laughter and of prayer—
These, too, are ghosts of No Man's Land.

The way a satisfaction to be 180 on the Bottom discovering markets to how the Bottom and the property of they great the property of they prefer the past years months. DC values are the greatest in the industry.

The Importance of Acting Now

Naturally, with demand the greatest in the history of the company, there is no surplus of DeForest Crosley radios. Some dealers are even short on certain models. The only way to be sure of enjoying your new DeForest Crosley for Christmas is to see your

TRANS-PONTINE COUNCII. might well be the name by which the 1980 City Council of Belleville will be remembered by. A new bridge across the Moira was evidently needed to accommodate the increased and increasing provincial highway traffic. Approaching this big project, no doubt in fear and trembling, it was faced and ackede courageously, and having the council didn't jump right in and build another bridge the same year—the build another bridge the same year—the if the council-didn't jump right in and build another bridge the same year—the like of which has never been known in the history of Belleville. Not only did the council buil dtwo bridges in one year but they were so proud of their doings that they placed their names in everylasting bronze on the structures to remind future City Councils for all time that courage is the parent of progress. Corner Store City Councils for all time that courage is the parent of progress. Corner Store critic says that the taxpayers won't need any bronze tablets to remind them of the works of the 1930 City Council, they will be able to read the story of the two bridges in their tax bills for years and years. But why bring that up?

ANGLES OF UNEMPLOYMENT

The present stress emphasized by the unemployment situation to relieve which relief measures have been launched brings to light unusual conditions. Belleville men for instance, get three, days work in a little less than two weeks, nine dollars the total wages. That this helps out wonderfully is realized but it must prove inade

rully is realized but it must prove inade-quate for a family to subsist upon alone. Unique situations are showing up es-pecially in the larger cities. There is the problem of the girls who are out of work and there is also the problem of the single Toronto and large cities have found that there are many girls without homes who have come into the unemployed class

that there are many girls without homes who have come into the unemployed class through shutting down of industry and yet they made they

way through.

The Belleville police shelter and assis The Belleville police shelter and assistance which is given the men here is certain to relieve many men of the temporary stranding on the shores of unemployment. Oshawa's soup kitchen for single men will devote its attention to Oshawa's soup kitchen for single men will devote its attention to Oshawa on to remain long but to move on as Oshawa has enough to do to take care of its own as the Mayor of Toornto states in a public notice in regard to Toronto. But Oshawa may now and then make a mistake through kindness but it will be a mistake of love, the shade of the pain of human beings.

EAT MORE WHEAT PRODUCTS

How the Canadian wheat grower can How the Canadian wheat grower can be helped in the present crisis and a foun-dation laid for every individual Canadian's own prosperity by eating more wheat products is pointed out by the Canadian Shredded Wheat Company. Nine million Ganadians can do much to assist in disposing of six million, eight hundred thousand bushels of wheat each year by

eating more wheat.
The present depression affects the

The present depression affects the wheat grower very seriously and every other Canadian as well for the results are of international character.

One effective way to help is by reducing the surplus wheat supplies by consuming the surplus wheat supplies by consuming the surplus of bread and other foods such as the products of this company and eating a little more of it would in reality improve the health of the individual. ality improve the health of the individual

Belleville folk must be lovers of light, heat and water for like Abou Ben Ad-hem's name, these three, the chairmen of gas, waterworks, and light, led all the rest in the civic elections. Next came the as the critic elections. Next came the chairman of believille good roads and in close pursuit came the chairman of believille spood roads and in close pursuit came the chairman of burns atrings of the city. Heat, water, light, good roads and the pocket book are close to book are code chings for the citizen to think about. I afriendly basis.

INTERNATIONAL PAPER and POWER COMPANY

More than one-fourth of all hydro-electric homepower installed in the Do-minion of Canada during the past five years has been built by International Paper and Power Company.

International's programme is one of new development—the construction of dams, power houses, storage reservoirs and transmission lines—transforming idle rs into producers of useful energy. Canadian Hydro-Electric Corporation Limited now comprises eighteen plants with a total designed capacity of 809,319 horsepower. Of this total, 565,459 horsehorsepower. Of this total, 505,459 horse-power has been built in the past five years, and an additional 54,000 horse-power is nearing completion. Every horsepower now developed under International's construction programme

was sold before completion of the projects. Purchasers, all under long-term con-tracts, include the Hydro-Electric Power tracts, include the Hydro-Electric Power Commission of Ontario, the Ottava Elec-tric Company and such important indus-trial consumers as E. B. Eddy Company Limited, Canada Cement Company Limited, Hall Iron & Steel Foundriss Limited, Dominion Rubber Company Limited, Frarer Companies Limited, Canadian International Paper Company and New Panuasciel International Veyer Company. "We invade a new field with vastly improved cars at the lowest prices in our history"

BY WILLIAM J. MCANEENY

WE have built these models up to and beyond the 1931 standards of performance and quality in every way, and have never in our history offered so many improvements. Quality is greater down to the last detail. Every phase of performance has been greatly improved, and the luxury we have built into the cars is substantially greater than ever before. Motors are larger and more powerful. An efficient system of oil cooling is introduced. A marked improvement system of oil cooling is introduced. A marked improvement-in carbitricial increases floatility and economy. Bodies are longer and wider. These cars possess the finest, easiest riding qualities. STATIC AND . . .

There is hope that there will be some step towards the solution of "statte" as a recult of the efforts being made by the Canadian engineers in Northern Ontario. Static once abolished, the 'muisance' who upsets the program of a whole cityful of listeners, ought to be summarily dealt with. He who is too mean to ground his electrical device for the sake of the good of others, ought to be made to boy the law. Some day after having caused countless people annoyance the disturber will at last be forced to give up his dog-in-the-manger policy of owning the air because he owns a machine which will make radio sounds hideous.

SUFFERING ANIMALS Sometimes man has to be firm and even hard to be find. Belleville has had an insiance lately of a dog left wounded on the gaining dump where it tore at the earth and suffered for some days before its discounting the control of the earth and suffered for some days before its discovery and the merciful action of the police in putting the once fine animal out of the misery. It plainly was the duty of the owner of the dog anxious to end its life to see that the attempt to destroy the animal was a success. It would have been much better for that man to have fired two shots and made certain his dog was dead than to leave the poor suffering was dead than to leave the poor saltering animal for dipys to best about striving to make its way home. That suffering was unnesseasy and could have been prevented by herole and determined measures by the abouth. Herole is the summer of the

DEATHS BY FOG

The world has been startled with the story of the deaths of scores of people in Belgium from "fog" or gas and with the large number of deaths in England over the weekend. Suggestion has even been of a aimilarity to the Black Death which swept over Europe and took off one third of the -population - centuries ago, Dictors; however, expect to find some more reasonable solution for the outbreak of sudden deaths. Worry, says Sir William Arbuthno. Lane, may send a man out into the street well in the morning and the fog will give him pneumonia before the day is quit. "Others think the death in the day is quit." Others think the death in the day is quit. "Others think the death in the day is quit." Others think the death in the day is quit. "Others think the death in the day is quit." People may reat assured, this is no black death. Belief that the present outbreak is due to some such cause might predispose numbers of frightened people to the malady. Science will find a suffi-cient explanation of the ocurrence.

Christmas is steadily approaching, though the weather suggests March or April. There are only thirteen more business days, including two Saturdays, in which to make all the plans for a Dickensian Christmas. Heavy buying ought to show up abortly. Traces, of the Yuletide demand are beginning to be manifest in the Belleville stores.

The heartiness with which the police and for houseless men is given and the numerous expections which are being made for the housing and providing of those needing the land food proves that the issert of the piebple is in the right place.

COMPARATIVE ABSENCE OF CRIME

Comparative absence of serious crime has been noted in this city, particularaly during this fall and early winter. For some day there has been no court held at the police sta-

tion. This argues a sense of obedience to the law as well as a fine police protection, and insures a sense of safety and confidence among the people.

WINTER PLOUGHING

WINTER PLOUGHING

Weather this year is setting a good many old records at naught as seenes in the country today show with ploughmen laboring in the flaid in the soil from which the first was the flaid in the soil from which the flaid was goo complaint was made that the drought had made ploughing exceedingly difficult owing to the baking of the ground but the present resomewhat for the shortcomfing of the autumn miwhai in regard to rainfall.

People years hence will look back to the years 150 as one of unusually fine weather.

CENTERING on the Gatineau River. International's Quebec power develop-ment programme was initiated five years

Then, the great power resources of the Gatineau were running to waste.

Now, the Gatineau is barnessed; on this Now, the Gatineau is harnessed; on this river alone, and within less than two years, International built hydro-electric plants with a total designed capacity of \$62,000 horsepower. Of this capacity, generators aggregating 438,500 horsepower now are in operation and their entire output is in the service of Canadian industry

Two great storage reservoirs, with a com-bined capacity of one hundred and forty-five billion cubic feet, likewise have been constructed by the Company, and are being operated by the Quebec Streams Commission to regulate the flow of the river, restraining otherwise destructive floods and impounding their energy for the later creation of useful power.

"For the first time in the history of' Canada, perhaps in the history of the world, a whole river has been taken over, every available source of power marked out, and the greater part of this power harnessee) to giant turbines."

From its inception in 1925, development of the Gatineau has been carried forward by Gatineau Power Company, a wholly-owned subdidary of Canadian Hydro-Electric Corporation Limited, and itself one of the largest producers of electrical energy on the North American continent. (*) From The Engineer, London, England.

What International Paper and Power Company is, who owns it, what are its policies and where and of what nature its undertakings, is being told in a series of advertisemants, of which this is the seventh.

FOR months, now, the people of Canada have been buying more DeForest Crosleys than any other radio. In 1930 DeForest Crosley has established a leadership which has not been threatened. But more important is the fact that week after week, month after month, that leadership has increased. 'Today a bigger majority of Canadians than ever are choosing DeForest Crosley.

Canadians Buving for Value and Performance

There has been no trick to the DC sales success in 1930. DeForest Crosley leadership has been leadership in the things you want in a radiotone quality . . . performance . . . cabinet beauty . . . value. That's all.

New DC Engineering Developments

Everything that radio engineering has , Everything that radio engineering has developed and found valuable is incorporated in the new DeForest Crosleys. Automatic Volume Control in some models—Tone Colour Control in four models—Full Efficiency screen-grid tubes in all models—memyl developed dynamic speakers—Mershon condensers—all are there.*

WE'LL DRY THE DISHES, BETT by Julia Daingerfild Glass

by Julia Daingerfild Class
You were surprised to get a letter from me,
Away off here in the West;
Two thousand miles away from home,
"Away from the old home nest".

Thave no home, I all miles away.
Deplore the fact that I'm gone, do you?
Well, I'm here, and I'm gonns stay.
Far away from friends and relations;
Too far for them to visit in—
"Too can't see which well are not seen the well, there's a leep that folks can't see.

Well, there's a heap that folks can't see.

For twenty long years I've fed "em,
These preclous city friends and kin;

It was wonderful to be engaged but it was miserable too because Dick was out on the road all week and letters were difficult when he moved around so Then one night, when he was specially lonely, he

telephoned her from his room in the hotel. It was the nicest present he could have given her and it cost less than the price of a movie.

It was so easy and it made them both so much happier that they arranged regular visits by telephone every Tuesday and Thursday evening — moments of affection to remember and look forward to. The weeks seemed only half as long.

Telephoning is the next best thing to being together. Out-of-town calls are simple, dependable, inexpensive - and quicker now than ever before.

TEACHING OF LANGUAGES

Discussion of the teaching of foreign languages in the upper classes of the public schools has been heard in the Toronto Board of Education, though no opinion was expressed by the school management committee. There was divergence of view, some favoring the beginning of study of French as a permission of the public of the p

board for discussion.

As languages can be acquired much more readily in childhood than in youth, one trustee was in favour, but another said scholars did not require a knowledge of French to enable them to go out to fight the battle of life.

Probably the last of the question has not

AGES OF CARS

AGES OF CARS

Over in England there was a motor race recently of cars which had to be at least twenty years of age to compete and some almost rubbed the forty year mark. The course from in 38 minutes and fifty seconds, not very solvey going for a 1903 model. In this country such cars are called "old, crocks."

Of equipp the average time made by the peed of the modern car, and this may explain the comparative safety with which the most of the machines operated during the race, though there were a few minor accidents.

More for Your Money, and of Better Quality!

When it comes to buying, we are all alike in one respect. We want to get the most we can, the best we can, for our money!

If our dollar has regularly been setting us 20 pounds of susar, we are naturally pleased when, some day, it gets us 21 pounds. And if, on trying it at hidne, we find that at 21 pounds for a dollar we are actually setting a better quality of susar than we forzmerly got at 20 pounds for a dollar, we're doubly pleased.

Now while it may not do that exact thing, that's the sort of thing that the "Produced-in-Canada" movement will do for everyone of us if we will give it our whole-hearted support. Let me explain.

Incidental to the operation of every manufacturing plant there are cortain expenses that are commonly spoken of as fixed charges. Included in that category are such things as taxes, insurano, heat, light superintendence, administration, depreciation, and interest on capital invested tendence, administration, depreciation, and interest on capital invested. IF LOVE SHOULD DIE

If love should die, what could I keep
To save crushed heart and reeling brain
When mighty tides of anguish sweep
A world no more the same again?

Through unknown lands though I should rove Still, day by day and hour by hour, A thousand memories of love Would quicken into perfect flower.

Dawn, dusk and golden noon would bring Each one its bygone garlands back, And with each one a cruel sting For future barren hours' lack.

If love should die, then would I dwell Within the towers of the past, Where happy memories would dispel All else save dreams that could not last.

And in that stronghold I would find
Beyond the reach of sigh or tear,
Untouched and beautiful and kind,
Unchanged, the love I hold so dear!

CHANGING FOWL PRICES

Turkeys, according to locat dealers and shippers are soing to be plentful for Christmas and will be sold at reasonable prices. That means that many fowls will be enjoyed in many homes which in previous years had to be satisfied without this fowl supermining prisonesses low to what they were in the past few years.

prices are low to what they were in the few years. It is not so long ago when turkeys sold so the half dollar mark per pound. Signa indicate those prices are gone for a long or forever.

HILLS OF LIFE

As I rode into the hills today
The wind was keen and the clouds were gray
The sir was weet with promise of rain,
And a pale mist floated above the piain.
While over the rim of the valley's cup
Still higher and higher I wandered up.

The prospect widened before my gaze; Turquoise and topas and chrysoprase The scene lay, are delike a precious gem Set into the wide world's diadem, And farther and farther Earth's beauty spri Till it met the blue arch overhead.

As I ride on into life's great hills
I rise up farther from cares and ills,
While wider and wider the vista lies
Of joy and truth for my happy eyes;

"I am speaking for 7000 Operators!"

"I am one of 7000 Bell Telephone operators in Ontario and Ourbec.

"Of course you realize that there is no form of Christmas greeting to friends at a distance so intimate, so cordial and friendly, as a little talk by telephone.

"May we ask a favor? It is that you will please telephone your Christmas greeting to distant friends early — early in the day and early in Christmas week!

"We are anxious that such long distance calls should go through promptly. If they are all concentrated into Christmas Day, there may be some congestion that will mean delay — slow service.

"The Christmas spirit will pervade the whole of Christmas week. Your greetings by tele-phone will be welcome and timely at any time during the

Away back in the year 1868 when the Walker Hardware store was established Christmas was a bit different from the Christmas of 1830. Snow, and plenty of it was needed for the Christmas retailed in the was limited to the Christmas retailed in the was with fine big horses, steaming with exertion and the old fashioned box sleight with the bottoms comfortably padded with traw. No autos, no radios, no electric lights, no telephones, few bathrooms, but plents plannings, which after it ill in what counts must. J. W. Walker (Johnny) was good business man, a kind friend and one of the most popular citizens of Belleville. Down through the years the business of the Walker Hardware store founded upon attrict honesty and fair dealing has increased in size and patronage until now its volume of business is not excelled by any similar business in Canada.

#### Bring the Boys and Girls Back Home!

How often have we all deplored the fact that thousands upon thousands of our most promising young men and women find it necessary to leave Canada, in order to seek in some other country opportunities for the employment of their talents that seem to be lacking here?

As individuals we have despired it, because in these cases in servor the is caused us through the breaking of lamily circles and that we have a cannicated by a sense of irrevocable loss, due to a feeling that the coparation is given to be promagnent, and from a break national standown of the companion of the co

Nust we continue to rea and educate our children—to equip them as best we can for the successful careers we hope will be theirs—only to lose them to an alien flag because of the dearth of opportunity for them at home.

Oppositually of any hind is a sesult, of which production of some hinds toward the owner. Most people create their opportunity by engaging directly in some form of production, such as farming, shining, mining, unimaring or manufacturing. These people provide the foundation and, occupations that constitute the super-structure, such as transportation, bening, insurance, trading, the professions and public service.

The more the people of a country favor their own producers, thus givin the latter all the incentive necessary to increase the volume and broader the scope of their production, the more abundant will be the immediate opportunities they create for themselves, and the future opportunities they create for their children.

If in the past opportunity has not been as abundant in Canada as it has been elsewhere, it is because Canadian producers as a class have soot reason our producers have been less successful is because they have failed to receive from Canadian citizens generally the same loyal support that the producers in certain other countries have received from their

Same of these countries import practically nothing that they are cap of producing for themselves. But we Canadians are so careless about 'sily' buying, so thoughtless of the walfare of our producers, so that suits debut keeping the door of opportunity open for our sons adaptives, that every working day we allow ourselves to be solid adaptives, that every working day we allow ourselves to be solid at 12,00,000 worth of imported metchandiae that our own produces we have been failed to make for us, if we had only firm they the Chance

Why not let us all resolve that from now on we'll try to bring our boys and girls back home by remembering, in our buying, that it must always on."Canada First"!

### HAMILTON BY-PRODUCT COKE

"This is ONE WAY of helping Canadian Industry"

Serious thought is being given today by both business men and householders to methods of keeping the wheels of Canadian industry revolving. A very practical and economical plan is by utilizing this 100% Canadian fuel.

As a strictly first class coke, it reduces costs by one-third, offers quick, clean heat, removes ash and furnace inconvenience, and maintains hundreds of Canadian citizens in employment.

> Hamilton By-Product Coke enjoys established popularity with those who study their furnace problems. Homes are warmer and cozier than ever before, and furnace equipment operates with maximum precision and efficiency. Orders promptly filled.

With a fall burnt dim, and love so cold:
Lo! Down the street,
With Plercod Feet,
He came;
The Lord of Love.

Own the street,
With tired eyes, and painted faces,
Weary of care and crowded places,
And while they waited the voice rose clear,
Finding each heart, and vanquishing fear;

The feast is over but the spirit of Chrimas ought to remain, not only as a memory and enjoyable and rich occasion bu as a majoring in all men's actions.

For once the merchants showed the king how trade could be carried on wi snowbanks and trade become successful.

A writer of verse in the Christmas Eve sellition of The Ontario Intelligencer tquched a pathetic chord when he spoke of the speresion a man feels who through lack of work is made to give rather than receive If all most feel like that the slump in buspiess will most feel like that the slump in buspiess will make the same that the same who succeed the earth. They are the man who succeed because they fixed the proper apiet.

just as you told me. I undressed at the foot of the stairs. I folded my clothes neathy. I crept quietly up the steps. But when I reached the top—it was the elevated station!"—The Kire Box.

CHRISTMAS UP-TO-DATE

The Christmas waits in longer sing.
To herald Christmas day;
We tune or merry carols in
we tune or merry carols in
to more haul the yule log.
Old customs come and sp.
Now Santa Claus arrives by air
And speaks by radio

The flow of wassall we control;
Nor feast on head of boar
Our appetites are daintier
Than in the days of yore;
The poor (still after the ways of yore)
Hang, suffer the ways of yore;
For our content our gate,
For our content our gate,
I a handled by the State.

Religious schims make us doubt
The story of the Star
And the Star

And yet the holy day of days
Holds still the same aweet thrill;
The volden message shepherds heard
Upon the Eastern hill:
The merry Yuletide bells ring out,
The erimson caridles glow,
The peart is stirred remembering
That Christmas long ago.

Lord, spite of all our shifting creeds,
Our world's perplexity,
Let us approach this feast of Thine
With cold simplicity;
That Peace, so angel-heralded,
Is our first need today,
Grant that the ancient blessing

Ring Out the Old, Ring in the New!

Another few days and 1930, with whatever it has brought us of success or of failure, will have passed into history, and our thoughts will be centred on a new year, and on the better times we sincerely hope it has in store for us.

While the opportunities of the past are gone beyond recall, the future is ours to make of it what we will. And we can make it a far brighter, a far more prosperçuis future, for ourselves individually and for Canada as a whole, if we all resolve to profit big the leasens our experience has taught us.

Allowing those leasted, surely we have learned how dependent each of us is for his own opportunities and his own advancement upon the well-being of Canadian producers as a class, and how much better it would be for every one of us if in. our daily buying we were all to favour Canadian products.

If you believe that "Produced in-Canada" doctrine is sound common sense, that it points the logicalway not only to raise an unemployment but to lay broader and despareho-foundations of our national property, why not make the practice of it one of your foremost resolutions for 1931?

Celebrate the new year by ringing out old habits of carelessness in buying, and ringing in the new resolve henceforth to be studiously careful. For 1931 let this be you'r cred?

"I love her as my home. I honour her fastitutions. I rejoice in the

"I glory in the record of her achievements. I have unbounded confidence in the ability of her people to excel in whatsoever they undertake. I cherish exalted ideals of her destiny as a leader among world nations.

"To her I piedge my loyalty." To the promotion of her best interests I piedge my support. To her products I piedge my patronage. And to the cause of her producers I piedge my devotion."

If you are willing to embrace this creed, a copy of same artistically executed in colours, and on heavy stock suitable for use as a wall hanger or for framing, is young for the asking. Ring Out the Old, Ring in the New!

Another few days and 1930, with whatever it has brought us of success or of failure, will have passed into history, and our thoughts will be centred on a new year, and on the better times we aincerely hope it has in store for us.

While the opportunities of the past are gone beyond recall, the future is ours to make of it what we will. And we can make it a far brighter, a far more presperous future, for ourselves individually and for Canada as a whole, if we all resolve to profit by the lessons our experience has taught us.

Among those lessons, surely we have learned how dependent each of us is for his Among those ressons, surely we have learned how dependent each of us is for his own opportunities and his own advancement upon the well-being of Canadian producers as a class, and how much better it would be for every one of us if in our daily buying we were all to favour Canadian products.
